Notes

If the hirer is a business and they are hiring the unit over a longer period (minimum of 60 days) for multiple users then we will deliver the vehicle to site and pick it up free of charge.

Tui Trail Adventurer has extensive solar power charging and can keep functioning (12v) away from powered sites for quite some time.

We will accept a debit card for the bond/excess but the funds will be taken and held, as with a credit card we will accept just an imprint for the bond/excess.

* the mileage charge for over 900ks is not in regard to the diesel tax applicable for some vehicles, that would be an additional cost over the vehicle use charge.
