

		4 F	ebruary 20
North Island	The continuing hot temperatures are hampering people moving about but the okay. The caution is that it will soften rapidly, so the removal of field heat as o possible is urged. The higher temperatures have hastened harvest. PET is expected to be in the 5-6mm/day region for the next few days and I have	completely and	d quickly as
	since 13 January. Taking water from the rivers has now been stopped. The GD after an overcast period in mid-January. The coming week seems to be gentle	D is now back temperature	to normal
	Berry fruit are still in plentiful supply and Royal Gala apples are on promotion.		
	Coronavirus is clearly influencing consumers across Asia, and consequently, al Fortunately, the bulk of cherry sales were well through in advance of Chinese coronavirus outbreak. Generally Asian markets are now very cautious, and Ch markets other than China. As a result, there has been some cherries that have planes that will come onto a reasonably short New Zealand market.	New Year and ile is sending	d the product to
South Island	Central Otago has received a significant amount of rain, 55mm in places, and Tuesday lunchtime). Picking has stopped. Orchards have been able to get cover will do so again when the rain ceases. Apricots and peaches will have some cor of this will be evaluated later in the week. The fade out of Hawke's Bay peach being matched with the wind up of Central Otago fruit, especially nectarines. there is some suggestion that the crops are still behind a 'normal' harvest per	ers on before osmetic damag and nectaring GDD are back	the rain and ge; the exter e is not quite
