**Latest news on Auckland fruit flies**

Summerfruit NZ is actively participating in the response efforts in Auckland. As GIA signatories, we are working in close collaboration with MPI and other potentially affected industries to effectively respond to this biosecurity threat. [Read more.](#)

**Market data**

Export market information for the week ending 17 February 2019 is available online. [Read more.](#)

**Can you tell a Queensland fruit fly from an Oriental fruit fly?**

Fact sheets on summerfruit's most unwanted pests and diseases are now available on our website. They provide additional technical information to our recently released [Most Unwanted](#) poster and are intended to assist growers and others in identifying these unwanted organisms. [Read more.](#)

**Free NZQA biosecurity micro-credential course available**

Primary Industry Training Organisation, together with Summerfruit New Zealand and other horticulture industries, have developed a biosecurity micro-credential (a short, focused piece of learning) to enhance industry biosecurity capability. [Read more.](#)

**Board meeting next week**

Don't forget that the Summerfruit NZ Board is meeting on 27-28 February in Napier. If you have anything you want raised for discussion at the meeting, please contact your local [Board Director](#) or send Marie an email by clicking [here.](#)

**Meetings**

27-28 February	<b>Board</b>	Napier	Midday	East Pier Hotel
5-6 June	<b>Conference</b>	Queenstown	9am	Various venues
