Export registration opens tomorrow

Growers, packhouses and exporters can register for export from **Saturday, 1 September** via the secure portal's online registration system. To access the secure portal, go to the [Summerfruit NZ website](#) and click on the **Portal** link on the top right of the homepage.

Once you are logged on to the portal, under the **Main Menu** you can find **Export** section which contains guides to help you register as well as other useful information. If you are ready to register simply select **Export Registration** where you can begin your online registration.

- **Russia** – While we cannot export summerfruit to Russia just yet, we are currently negotiating the OAP for cherries and apricots with MPI, which includes brown rot testing. We need to register your interest in exporting to Russia in order to organise this testing later on this season.
- **Fruit fly** – The fruit fly OAP has not been progressed and has been removed from the registration for the coming season.

Official Assurance Programmes

Information on the OAPs has been updated and can be found on the portal under Main Menu/Export/Compliance programmes. Registration for the Japan and Western Australia OAPs is open **1-25 September**.

2018-19 PHI and MRL information

These spreadsheets are not yet available but as soon as they become available, we will let you know in *Prunings*.

Update on Iprodione (Rovral) withdrawal

Last year a European Union decision was taken to withdraw authorisation for plant protection products containing Iprodione as an active ingredient. This will probably come into effect before the end of 2018. [Read more](#).

Meetings

7 November	Board meeting	Wellington	9am	Miramar Golf Club
