- **NZ market weekly update**
- **New biosecurity documents online**
- **BMSB found and contained**
- **MRL update**
- **A reminder for growers exporting to Thailand**
- **Meetings**

NZ market weekly update

Richard Mills has taken on writing the NZ market weekly update. If you have any feedback for Richard, please email richard@summerfruitnz.co.nz
The market update is available to read online now. [Read more.](#)

New biosecurity documents online

The biosecurity plan for the next three years has been uploaded onto the website. Biosecurity strategy 2018-21 summarises the strategy that Summerfruit NZ is currently implementing to protect our industry from biosecurity threats specific to summerfruit. [Read more.](#)

BMSB found and contained

Last week 26 brown marmorated stink bugs (BMSB) were found in Oamaru, in a box of imported shoes. The shoes were purchased from the American website eBay, and thanks to the rapid action of the purchaser who alerted MPI, the pest was quickly contained and controlled. [Read more.](#)

MRL update

Growers are advised to check the portal for the update to the MRLs released earlier this week. For details on the update see under Main Menu/Export/Current season export issues. The updated charts can be found on the portal under Main Menu/Export/MRLs and PHIs.

A reminder for growers exporting to Thailand

Remember that when submitting fruit for export to Thailand, growers need to complete the grower declaration form and forward to the packhouse prior to export. [Read more.](#)

Meetings

27-28 February	Board meeting	Napier	From midday	East Pier Hotel
5-6 June	Conference	Queenstown	9.00am	TBA
