

Wrist band order form

Our silicone wrist bands help reduce the amount of under-ripe fruit being picked and sent to market. Available to order now, the bands are comfortable and easy to wear and clean. Not only do they have a long life, they are hard wearing and won't split, tear or fade. Pickers, packers and QC staff can all benefit from using them.

Choose the colour(s) which best suit your orchard needs and the quantity of wrist bands required. The one-sized bands measure 1.6cm wide x 20cm circumference and are coded for easy identification. The colours shown here are a guide to the bands available and were selected following grower trials. **Each pack contains 10 wrist bands and costs \$20 per pack (incl GST).**

Get your order to us well before the start of the season to ensure they arrive in time for harvest. Summerfruit NZ will dispatch the bands along with an invoice for payment.
